PUBLIC PARKE-COL ERNST'S LETTER ABOUT IT-REPORT ON REMOVING THE CENTER PARK

It takes considerably more than a bit of ough weather to deter the East Washington Citizens' Association from holding its regular monthly meeting, so that when 8 o'clock arrived last night a generous attendance of members were waiting in Baum's Hall for the fall of President Babson's gavel. The regular formalities of reading and approving the minutes of the last meeting having been concluded, Dr. Dr. Pierce's Favorite Prescription (for desk, which was vacant owing to Secredesk, which was vacant owing to Secretary Sperry's unavoidable absence from the city. In reference to the resolution recently introducid providing for the change of name of the "Committee to Draft Proposed Legisla-tion" to the "Committee on Legislation" the executive committee, to whom the matter was

referred for report, recommended that no change be made and the report was adopted. A CENTENNIAL ANNIVERSARY. On September 3, 1891, the executive commit-

Upon this Chairman Babson in behalf of the executive committee reported that the matter had been carefully considered and it is recommended and requested the executive committee be in-structed to prepare a plan for such celebration.

THE CENTER PARKING ON PENNSYLVANIA AVENUE. In reporting upon the resolution of Mr. S. C. Clark touching the removal of the center parking in Pennsylvania avenue from 2d to 4th treets and from 6th to 7th southeast Chairman

the petition because he thought a majority of the citizens wanted it; yet in heart he was opposed to it. It would be a serious mistake to cut down the beautiful trees and obliterate the parking. Another consideration, and a serious one, he thought, was that relating to the cable road. East Washington was shortly to have rapid transit and the parking was really a safeguard against accident.

Chairman Brown spoke in support of the re-port. He thought sentiment was all good in a way, but he honestly believed it was in the in-terest of East Washington that the parking should go. If the business interests are to be improved the trees and parking must go. This parking would not be countenanced an instant in the northwest. This parking was put where it is in the first place not as a means of beauti-fying the eastern section, but as an item of economy. He wanted to see Pennsylvania aveonly be done by inducing merchants in every possible way to locate there. They demanded the removal of the parking, and it should be done. Regarding the danger of the cable road, he did not think there was anything in it. Pennsylvania avenue west did not suffer from this. He hoped the report would be adopted.

IN BEHALF OF THE TREES.

Dr. W. W. Hubbell thought the resoluti and report were premature. The trees were a grand improvement, an element of nature to grand improvement, an element of nature to absorb the carbonic acid gas. Trees promoted health, and a city could not have too many trees. Every man, woman and child in the United States had a personal interest in the capital city, and he was sure they would oppose it if they knew anything about it. A stranger coming to this city and taking a ride on the cable cars would find great relief in coming out of the hot sun down town and riding through a grove of trees. He moved to coming out of the hot sun down town and riding through a grove of trees. He moved to table the report. The vote was 8 to 5, and so the report was tabled. Mr. Brown gave notice that he would shortly

call the matter up again.

As chairman of the committee on public arks and spaces, Mr. Brown reported upon he resolution of Mr. M. L. Weller, offered at

he last meeting, with reference to the policing

f public parks and spaces. POLICING THE PUBLIC PARKS.

The report was as follows: "The committee on public parks and spaces nerewith returns the resolution offered by Mr. M. I. Weller on the 1st ult., centemplating a transfer of police supervision of public parks and reservations from the commissioner of public buildings and grounds to the chief of the metropolitan police, and submits for the consideration of the association a letter received by the committee from the committee. consideration of the association a letter received by the committee from the commissioner expressing his views in relation
to the subject of the resolution. The
committee believes that such transfer amicably made would prove to be a
great benefit to the law-abiding citizens, and of
great restraint to the evil doers and various
elements of the District. As the prevailing
system of policing the Capitol grounds, Garfield Park, Smithsonian grounds and other government reservations within this District does
not afford sufficient protection to pedestrians
at night time, and Col. O. H. Ernst has expressed himself as favoring a change as far as at night time, and Col. O. H. Ernst has ex-pressed himself as favoring a change as far as he is interested. The honorable board of Com-missioners are requested to recommend the passage of the required legislation placing the supervision of the public parks under the man-agement of our metropolitan police, such force to be increased by the necessary number of men so that the lives of law-abiding citizens shall cease to be menaced by the attacks of the lawless element."

COL ENNST'S LETTER. Mr. Brown requested that the letter of Col Ernst be read, and the secretary read as follows: "I have the honor to acknowledge the receipt of your favor of the 5th ultime transmitting a copy of a preamble and resolution presented at a meeting of your association and referred to your committee, upon the subject of police supervision of the public grounds, and requesting my opinion thereon. Absence from the city has caused a delay in my reply. It is true that the present force of park watchmen is not sufficient and that some of our larger public reservations are not safe at all hours against the lawless elements. The obvious remedies are increased light at night and increase of police force. Experience in the past has seemed to prove that a sudden and great increase is not to be expected of Congress; that the needed increase must Ernst be read, and the secretary read as a sudden and great increase is not to be expected of Congress; that the needed increase must be made gradually, and that recommendations from executive officers charged with this matter must be moderate if they are to receive a hearing. In my estimates for the coming fiscal year I have asked for such additional men and lights as I have thought it reasonable to expect might. expect might be granted A considerably greater force is needed, and I shall be glad if the efforts of your association may result in obtaining it. A transfer of the entire police supervision of the reservations to the metro-politin police would probably cause the usual unpleasant friction which is so commonly the unpleasant friction which is so commonly the result of divided control and divided responsibility. The metropolitan police already have concurrent jurisdiction and have the power to arrest for any misdemeanor which they may observe. They are often of great assistance to those in charge of the grounds. They can do no more unless their own numbers are increased. It would hardly seem to be in the interest of good government to deprive this

opposed to it for the reason that it took away from him considerable patronage. He thought if the edict went out that the parks would be regularly patrolled the evil doers would keep out of them.

Mr. Brown submitted copies of The Stan containing, as he said, "Valuable editorial comments on the subject," which he desired to be embodied in his report.

Mr. Wines moved that the matter be referred back to the committee for further consideration, and this was carried.

Mr. Clark asked why it was then that Mr.

The previous question was called for and the matter was postponed indefinitely. The meeting then adjourned.

The District National Guard annual shoot was in full operation vesterday afternoon After the THE STAR's report closed competition commenced for the gold medal presented annually by the proprietors of The Sunday Heraid.
But little rain was falling when Maj. R. A.
O'Brien, the range officer, called the roll and assigned competitors to targets. The temperature was sinking slowly, though, and a good many men found it difficult to keep anything like warm. Throughout the afternoon the light was extremely dull and occasionally an annoying breeze would upset the most careful calculations. Light. L. T. Farrabee, inspector streets and from 6th to 7th southeast Chairman Brown of the committee on public parks and spaces recommended that the resolution be adopted and requested the association to authorize its committee to draft proposed legislation, "to appear before the District Commissioners and the proper committees of Congress and urge the passing of legislation necessary for the removal of the parking mentioned in the resolution."

Mr. Wines objected to the report on the grounds that it was not available for presentation to Congress and that the whole matter should be reterred to the committee to draft proposed legislation, with instructions to prepare a bill which could be presented to the Commissioners and Congress.

Mr. M. I. Weller spoke at considerable length of rifle practice for the fourth battalion, suflong and Congress.

Mr Gilbert argued that there was no evidence of Boyer's connection with Bards-

I do not hesitate to say that the existing trouble may be traced to the English and their great chagrin at the treaty of reciprocity recently made with this country. Ever since the president signed the treaty English agents have been howling into the ears of the younger congressmen the great injustice done to Brazil, and sums of money thereby lost, and it seems not without effect. Thus impelled, the younger congressmen have carried on the fight, and in some respects it resembled the Piatt-Conkling affair. When this became apparent to Fonseca he said to the second, 'Go,' and to prevent the sending of unfounded and lying reports, he placed a censorship on cables. But Fonseca is not what he has been pictured. He accepted the presidency much against his will. It was positively a sacrifice on his part, but he is a patriot and went where he was called. They say they fear he wants to succeed himself when his term expires. Bosh? He does not. He will do naught else but that will advance Brazil's interests. Soon the smoke will clear away and you will find the outcome to be one of peace and progress."
